## What are the main advantages of the Budget Care Plan?

---

- \* No joining fee
- \* Direct Debit for easy payment
- \* Cover starts after your second direct debit has been received
- \* No 'middle men' and no insurance element so the fees are kept to a minimum
- \* The price is not dependent on your dental 'risk' or past history though you will need to be dentally fit in order to join the scheme
- \* Basic routine treatment is budgeted for and will encourage regular attendance thus reducing the risk of problems & emergency treatment
- \* No claim forms to fill in
- \* 5% discount for second and subsequent family members on the same direct debit
- \* 10% discount for any additional treatment
- \* Costs via direct debit are guaranteed until the end of August 2007

If you would like to take advantage of this opportunity please contact FHDC and you will be provided with a direct debit form

*Please note that this is not a dental insurance or a credit scheme and does not cover non-routine treatment*

**Save 10% on your ongoing dental costs with BCP!**

## Budget Care Plan

helping you to budget  
for your regular  
dental treatment

from 1 September 2007

## helping you to budget for your regular dental treatment

The annual cost of your dental treatment can be spread out by paying a small amount each month

“Prevention is better than cure” and by attending FHDC regularly you...

- \* help to maintain your dental health
- \* allow screening for oral cancer and other diseases
- \* reduce the risk of difficult and costly treatment
- \* reduce the need for emergency treatment and extractions
- \* enable problems to be spotted early and treated by preventive means wherever possible

**Budget Care Plan encourages  
regular visits**

## How do I start?

It's easy, once you have had a dental examination and you are dentally fit just tell FHDC that you have decided to join the Budget Care Plan and you will be given a Direct Debit instruction form to fill in and return

After receiving your instruction it will take about 2-4 weeks before your first payment will be made

## How much will it cost?

The cost of the plan is based on preventative care and is limited to routine treatment. It is not dependent on your dental 'risk' and so it is the same for everyone

FHDC are able to offer a reduced payment when there is more than one person using the same Direct Debit payment. Children are also discounted

- \* 1st person:  
= **£13.56** per month
- \* Each child (5-18 years old):  
= **£5.58** per month
- \* Any other person using the same Direct Debit:  
= **£12.88** per month **5% saving**

## What is covered?

The plan is designed to cover treatment that most people may reasonably expect to need each year

Each year this may include:-

- \* 2 dental examinations (incl. small diagnostic X-Rays)
- \* Scale and polish with examinations
- \* 2 hygienist appointments OR
- \* two routine fillings or extractions
- \* Monitoring for periodontal disease & oral cancer
- \* A treatment for sensitivity
- \* 1 visit for an acute gum condition
- \* 1 denture adjustment (or re-cementing a crown or inlay)
- \* Dietary advice
- \* 6 monthly reminders

## Did you know...?

**Payments made into the plan may be claimed back from the Leeds Hospital Fund. Please ask at the practice for more information**
